Huntsman, Archibald Gowanlock

June 1915

June 30th, 1915

Dr. A. G. Huntsman,

Department of Biology, University of Toronto.

Dear Dr. Huntsman:

At a meeting of the Board held last Friday the estimates were passed and it was agreed to add $100 to the salaries of those who had had the promise of statutory increases. You come under this regulation, and your salary has consequently been raised to $2000. We hope that the Government will ratify this action on the part of the Governors.

At the same time I mentioned the fact that Professor Bensley strongly recommended that you should be appointed to the positi of Assistant Professor, and I told the Board that I could myself warmly endorse Professor Bensley's recommendation. It was felt, however, by the Board that no new appointments should be made this year which should involve future obligations. I may, however, assure you that your work is highly appreciated in the University, and that as soon as improved conditions arise you will, if your work continues to be as satisfactory as it has been, be one of the first to receive promotion to the higher rank.

With kind regards, I am,

Yours sincerely,

President.
